Abdeckung, Ausschluesse und Integritaet

Asset: Ethereum / USDC / decimals 6

0xA0b86991c6218b36c1d19D4a2e9Eb0cE3606eB48

{{TODO: verify}}; public issuer contract reference only; no live lookup

Blocks: opening 24000000; range 24000001 - 24000099

Synthetic block numbers; not actual historical block mappings

Coverage complete: true; selected interval only

No missing interval in this synthetic fixture.

Agreement is limited to this asset and interval; not a certification.

Not included: 999000.000000 USDC label / 0x9999...9999

Synthetic counterfeit token; different contract; not included in any USDC total.

Real unverified tokens need review; a bridged version is not automatically fake.

Freeze status: not checked. A freeze alone does not explain a balance difference.
